TIMELINE

September 2023- December 2023

Background

According to the report, cyber-attacks will increase by 25% in 2023. Regs is a leading authority in regulatory solutions, blending innovation and expertise to empower businesses with comprehensive compliance, fostering success and growth globally.

The Problem

Tackling investment hurdles head-on, Regs Investment Website is your ally. Our tailored solutions address complexities, ensuring a smooth path to compliance and unlocking the full potential of your investments.

The Solution

Regs Investment Website offers tailored solutions, transforming challenges into opportunities. Achieve seamless compliance and unlock the true potential of your investments for sustained success.

Find What's Possible In The Markets

Access Liquidity for Pre-IPO Equity at Lower Minimums
Access liquidity via our funds with more than 200,000 global shareholders and investors in the marketplace. RegS Exchange's proprietary technology enables lower minimums for investors and sellers.

Access Private Technology Companies
Tap into a \$500B venture-backed equity class. Invest in private companies via RegS Exchange investment funds which purchase and own the shares on behalf of investors.

Guided Process
Our platform guides you through the complex process of selling or investing. Specialists are available to work with you and the issuer to facilitate transactions.

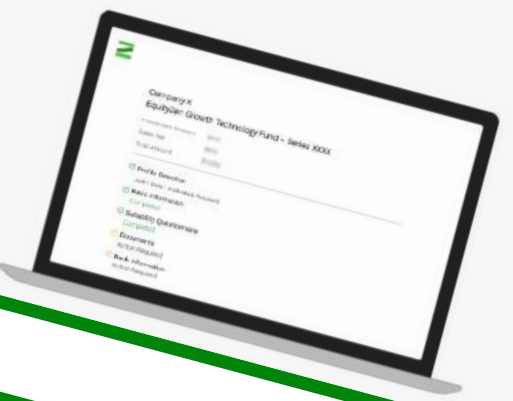

Curated Investments
We provide proprietary analysis including recent price history, valuation and cap tables. While not without risk, we offer companies with proven track-records of raising capital, generally from top-tier venture capital investors.

RegS Exchange By The Numbers

How It Works

- 1] Sign up and verify accreditation status**
Verify your status as an accredited investor to access the platform and view available offerings.
- 2] Browse companies and reserve investment**
Reserve investments in RegS Exchange's investment fund offerings. Indicate desired investment in upcoming offerings.
- 3] Complete investment documents and fund investment**
Execute investment documents on RegS Exchange. Fund your investment via ACH transfer or wire.
- 4] Manage portfolio**
Track and manage investments and documents. Receive updates on company performance.

RegS Exchange is the marketplace for selling your private shares

Live On Your Own Terms

- Diversify Your Portfolio**
Gain access to capital and safeguard your net worth from the concentration risk of being too heavily invested in one company.
- Options without Compromise**
You don't need to choose between letting your equity options expire or the uncertainties of exercising without an IPO on the horizon.

Discover the Value of Your Equity

RegS Exchange calculator utilizes proprietary data, market and company research, and analysis of secondary transactions on our platform to deliver real-time value of your equity.

Company: _____
Search Companies: _____
Number Of Shares: _____
Share Class (Security): _____
Search Series: _____

[Value Your Equity](#)

Annualized Returns

RegS Exchange Securities (RegS Exchange) offers qualified investors the opportunity to invest in a single purpose limited liability company that holds the equity of an underlying private company, as described further below.

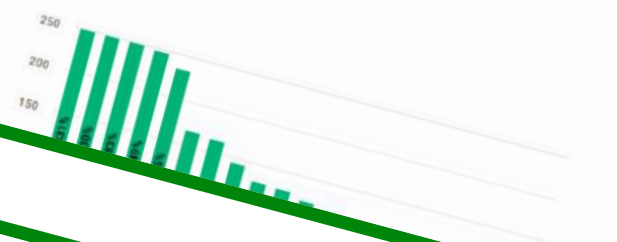

What do the returns represent?

RegS Exchange's affiliate, RegS Exchange Advisors (REA), identifies and forms a single purpose limited liability company (SPV) to hold the restricted securities of a private company. Qualified investors familiar with the risks and rewards associated with investing in the securities of private companies and able to bear the associated investment risks, including the risk of a loss of their investment, may invest in the securities of such an SPV. Each SPV holds the equity of only one private company. The SPV is the owner of the shares of the underlying company and the qualified investor owns an interest in the SPV. We summarize below under "risks" the risks associated with investments of this type.

From time to time, the underlying private company the securities of which are held in an SPV may determine to enter into a merger or sale transaction, to undertake a direct listing.

IRR for Exited Companies Held Through SPVs

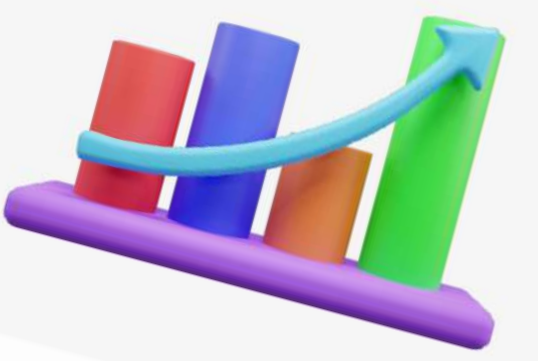

RegS Exchange Managed Funds

Diversified exposure to pre-IPO companies

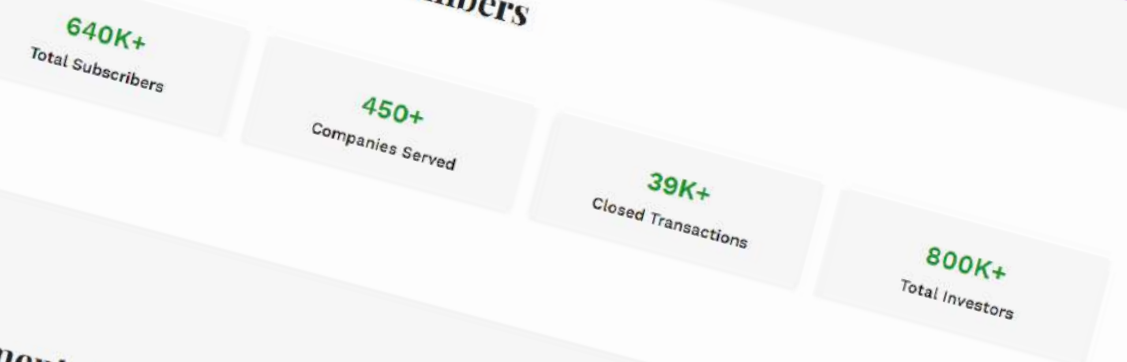

Companies are staying private for longer.

Value creation in technology-enabled companies is increasingly occurring in the private markets. In 2014, companies typically went public after 4 years. Today the average company IPOs after 10+ years. Until recently access to pre-IPO companies has been limited. RegS Exchange is here to change that.

RegS Exchange By The Numbers

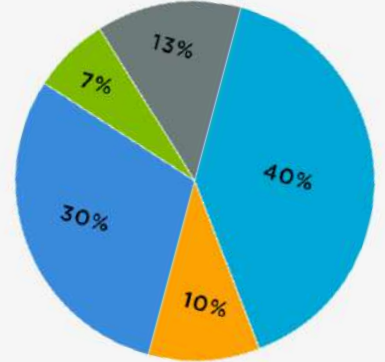

Investments Enabled By The RegS Exchange Platform

- Highly Curated**
Our investment committee follows strict guidelines to select a subset of opportunities on our marketplace.
- Low Investment Minimum**
Efficient deal execution driven by RegS Exchange's proprietary technology enables investors to invest at low investment minimums.
- Enabled by RegS Exchange**
With over 35,000 transactions across over 400 companies, RegS Exchange is the trusted marketplace for pre-IPO shares.

Ready To Sell?

RegS Exchange can help you realize the potential of your equity. Value creation is happening before innovative companies list the public markets.

Distribution of Company Exit Strategies

The height of the bar for each company represents the IRR realized for investment in that company, net-of-fees. 33% of exited companies experienced negative returns net-of-fees, while 67% of exited companies experienced returns net-of-fees. The annualized return information provided is provided solely for illustrative purposes. For illustration, \$10,000 invested in a portfolio with an annualized return of 50% would generate gains equivalent to \$5,000 per year.

The Result

By leveraging Regs Investment Website's comprehensive solutions, businesses witness a transformative journey. Seamlessly navigating regulatory challenges, our tailored strategies propel your investments to new heights. From enhanced compliance to optimized portfolios, the results are evident—increased efficiency, reduced risks, and sustained growth.

The success stories speak volumes. Clients partnering with Regs Investment Website not only overcome obstacles but also flourish. A proven track record showcases substantial returns, improved operational efficiency, and strengthened market positions.

"Their dedication and thoughtfulness in transforming RegS were truly commendable. We are highly satisfied with the results—an outstanding enhancement to our product!"

What is Colin's Wolf Pack LLC

We are a unique education system offering 2-in-1 full service courses and a personalized mentorship by multi-millionaires for guidance through every step of your way.

- Through proven investment strategies, we teach you how to multiply your investment and evolve your business into automated-money-making machines that work for you while you sleep.
- If you genuinely give your 100% effort and don't AT LEAST make your money back... then quit. You can cancel at any time after 3 months. Our goal is for you to be rich and successful by then. We believe in you.
- You put yourself here because you want financial independence and success, and that is exactly what you will find with.

Frequently asked questions

Schedule a 1 on 1 meeting with Colin if you can't find the answer to your question. Happy to help!

Once I find a property to buy/flip/wholesale/rent, can you help me through everything?
I don't have a lot of time available, can I still apply?
There is a lot more that you'll learn in here than what the average investor knows. How is it that the average investor makes so much less than we do?
What if I know nothing or I know a lot about what you teach?
How soon will I get my money back?
Do I need to invest additional money once I sign up?

Colin's Contact List

User retention increases

The Result

The new design not only helped to increase user engagement and conversion rates, but it also resulted in a significant boost in sales revenue, with a 25% increase since its implementation. Thanks to the simplified navigation and enhanced user experience, customers are more satisfied, resulting in more positive reviews and referrals and a better reputation for the business.

Customers reported that Panther made it simpler for them to navigate and monitor their security systems. Hence, the company's dedication to providing the best possible user experience contributed to an increase in both customer trust and loyalty.
